Landscape

National Landscape Small Grants Fund

Grants are available from £100 up to £4000 to community groups, businesses, farmers or individuals to get a great, sustainable project off the ground. Projects which bring environmental, economic, social and/or educational benefits to the communities within the North Devon Coast National Landscape are particularly welcome to apply.

The Sustainable Development Fund is supported by Defra and for the last ten years has enabled the National Landscape Partnership to support activities which meet the primary purposes of the National Landscape: to '**conserve and enhance**' the natural beauty of the landscape.

This year (2023-24) our grant scheme is open to projects meeting any of our 2019-2024 National Landscape Management Plan priorities. Smaller projects do not need match funding. To qualify for funding, projects are required to:

- **Benefit** the North Devon Coast National Landscape socially, environmentally or economically
- **Demonstrate** strong community support or benefit
- **Involve** volunteers

For information about what was funded last year and to download the Application Form and guidance, see:
